EI062 Econometrics II	Panizza Ugo, Vandewalle Lore	Martina Hengge Both professors were good- the TA was excellent This sequence of Econometrics is more applied and very interesting. Martina the teaching assistant is the best TA! Martina is such a great TA. She has taken good care of us for two semesters. Sometimes she would reach out to us with a very detailed email of explanations on some points and wanted to make sure Martina is the best TA in the economics department! She always is available, happy to help the students and if she is not 100% sure about an answer, she looks it up and replies within a couple of hours.
